Derived Classes

[Public Members of the Base Class]:

```
5   int main() {
6     Square sq;
7     sq.getLength(); // Returns 1, the length init'd
8                     // by Shape's default ctor
…     ...
…   }
```

[Private Members of the Base Class]:
